1801 Morgan Street Rockford, Illinois 61102 800-435-2931 www.molexkits.com

## **General Information**

**Part Number:** 76650-0111

Manufacturer: Molex / Waldom

Title: Self -Contained Power Connector Kit

**Description:** SCPC Tap Splice Connector and Safety Cap

**Product Family:** Self-Contained Power Connectors

Certificates: (Molex Parts within this kit) - EU and China RoHS Compliant, UL and CSA

Country of Origin: Kit assembled in U.S.A.

# **Specifications**

Design

Configuration: Wire-to-Wire

Connector Type: Plug and Receptacle

Circuit Sizes: 2 and 3
Current Rating: 20 Amps
Voltage: 300 Volts

Wire size: 14-12 AWG

## **Product Highlights**

Self-Contained Power Connectors are used to splice and tap solid non-metallic sheathed cable. The connector family supports two and three conductor plus ground circuits for A/C power applications. The product line features insulation displacement contacts which provide wire termination without the need to pre-strip the wires. The splice connectors are used to splice two cable segments together and replace butt connectors, wire nuts, and junction boxes used in traditional splice applications. Tap connectors operate in similar fashion and are used to support taps of existing cable segments to create new branch circuits.

## **Features and Benefits**

- A double latching system provides positive connection security
- Once the connector is closed, the strain relief is automatically set into place so screws and human factors are not a worry
- · No special tools required, just pliers

#### **Applications**

- Used to wire homes
- Buildings
- Office partitions
- RVs
- Motor homes
