

FEATURES AND SPECIFICATIONS

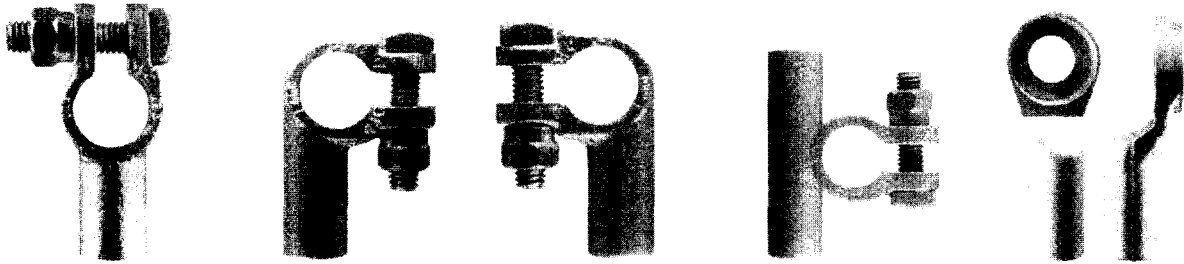

molex® Standard Battery Terminals 19218

Features and Benefits

- Terminal sides are the full height of the battery post, providing 25% to 40% more contact area.
- Bright tin plating for maximum conductivity and corrosion resistance
- Exceeds SAE conductivity standard J163
- 5/16" battery bolts and shoulder nuts fully plated
- Gauge, polarity and crimping information clearly and permanently identified
- Terminals can be installed with all major crimping tools and can also be soldered
